Profits of Tolographing.

The net profits of the Western Union Telegraph Company for the quarter ending March 31, 1880, were \$1,227,554. An estimate for the quarter, prepared about the middle of February, made the amount \$97,500 more. It is customary, in making up the dividend, to approxi-mate the receipts for the quarter about the middle of the term. In most cases the figures given by the Committee are less than the sotual receipts. The business for the year opened very briskly but fell off in the last half of the quar ter. The net total, however, was \$296, 000 in excess of the corresponding quarter last year, so there is no cause for complaint. The surplus carried over from last year was \$1,107,727. The gross amount of the first quarter was \$717,570. After meeting this and other appropriations, a surplus of \$824,299 was carried into the second quarter Taking the business for the last half of the first quarter and the first half of the second quarter as a guide, the committee have estimated the net earnings for the quarter ending June 30th at \$1,201,186, or \$26,000 less than the actual result for the first quarter. On the basis of these earnings, a quarterly dividend of 1% per cent. has been declared, payable July 15th. This is the fifth consecutive quarterly dividend of the same amount. Previously the dividends were 1½ per cent. per quarter.-[Bulletin.

Dr. M. H. Hinsdale.

Kewanee, III., advises us of a remarkable cure of Consumption. He says.

"A neighbor's wife was attacked with violent lung disease, and pronounced beyond help from Onick Consumption. As a last resort the family was persuaded to try Hall's Balsam. To the astonishment of all, by the time she had used one-half dozen bottles she was about the house doing her own work. I saw her at her worst stage, and had no idea she could recover.
